Former Chief Minister

Dr. Abdul Malik Baloch and

MPA Ms. Kalsoom Niaz Baloch
Visited the TF/IR Tech Institute

Former Chief Minister Dr. Abdul Malik Baloch and MPA Ms. Kalsoom Niaz Baloch visited the Taaleem Foundation-Islamic Relief project (TF/IR) Tech Institution, praising its role in transforming lives through education and skills training. Briefed on Taaleem Foundation's impact, the leaders lauded Haji Atta Muhammad Bangulzi's support for empowering local communities and stressed the need for more grassroots initiatives to create opportunities for youth. Both reaffirmed their commitment to back projects by Taaleem Foundation and Islamic Relief Pakistan that uplift underserved areas and drive sustainable progress.

High Level Collaborative Session at Sindh Education Foundation Head Office

Sindh Education Foundation
July 2025

A high-level collaborative session was held at the Sindh Education Foundation (SEF) Head Office, bringing together key representatives from the Taleem Foundation and the Management Development Center (MDC) to chart new pathways for educational advancement and institutional capacity-building. The meeting served as a strategic platform to explore potential areas of partnership, share innovative insights, and align future initiatives with the overarching goal of improving education quality and accessibility. Discussions revolved around launching joint programs, pooling resources, and expanding outreach in underserved regions of Sindh to bridge learning gaps and foster inclusive growth. During the session, the Managing Director of SEF underscored the importance of embedding skill development as a central

element in all educational interventions, particularly within the Public-Private Partnership (PPP) framework. He stressed that equipping students with practical, market-relevant skills alongside academic learning is essential for empowering youth and driving socio-economic progress. Both Taleem Foundation and MDC reaffirmed their commitment to collaborating with SEF on capacity-building, community engagement, and innovative learning solutions that respond to the needs of marginalized communities. This partnership marks a promising step towards transforming educational landscapes in remote and disadvantaged areas, ensuring that no child is left behind in the journey towards quality education and skills for the future.

A 2-Day Workshop

on AI & EdTech Integration

AI-Powered Smart Classrooms, Smarter Learning

in collaboration with
innoversity

Who Attended ...?

- Principals, School leaders
- Teacher (from different subjects)
- IT Coordinators and Support Staff
- Curriculum planners
- Education Consultants

OPF College F-11/2 Campus , Islamabad
Islamabad | 29-30 Jul 2025

With the fast-growing presence of AI and smart technologies in every field, the education sector is also seeing big changes. To help school leaders, teachers, and administrators keep up with these shifts, a 2-day workshop titled "AI-Powered Smart Classrooms, Smarter Learning" was held at OPF College, Islamabad.

Organized by Taaleem Foundation and Innoversity, the workshop focused on how educators can use AI tools to make teaching more personalized, efficient, and engaging. Participants explored real examples, tried out AI tools themselves, and worked together to plan how they could bring these technologies into their own classrooms.

Two Days Workshop

Highlights Day wise

The Use of Smart Technologies and AI in Classrooms

OPF College F-11/2 Campus, Islamabad

Islamabad | 29 Jul 2025

Day-I Highlights Time: 9:00 AM – 1:00 PM

The first day focussed on building a strong foundation in AI and how it connects with everyday classroom practices.

Session -I

Participants were introduced to the basics of AI and how it's changing classrooms around the world. They discussed its benefits like adaptive learning, data analysis, and automation as well as important topics like ethical use of technology. The session also explored the role of smart technologies such as interactive whiteboards, learning management systems, digital assessments, and real-time feedback tools in creating more engaging, efficient, and personalized learning environments. Participants reflected on how these technologies could be applied in their own schools to support both teachers and students.

Session -II

This was a hands-on session where attendees explored tools like ChatGPT, Canva, Deepseek, Stocktunes, and online voice recorders. They worked in groups to test out how these tools could be used in real classroom situations.

The Use of Smart Technologies and AI in Classrooms

OPF College F-11/2 Campus, Islamabad
Islamabad | 29 Jul 2025

Day-I Highlights Time: 9:00 AM – 1:00 PM

The first day focussed on building a strong foundation in AI and how it connects with everyday classroom practices.

Session -IV

The day ended with an open discussion on challenges such as lack of training, infrastructure limitations, and resistance to new tech. Participants shared real issues from their schools and brainstormed possible solutions together.

Session -V

Groups worked together to create customized content using the AI tools introduced on Day 1. This gave everyone a chance to experiment and be creative

Session -III

This session focused on how teachers can enhance their lessons using AI, from creating engaging content to giving personalized feedback.

Two Days Workshop

Highlights Day wise

The Use of Smart Technologies and AI in Classrooms

OPF College F-11/2 Campus, Islamabad

Islamabad | 30 Jul 2025

Day-II Highlights Time: 9:00 AM – 1:00 PM

The second day was all about applying what was learned and looking ahead.

Session -VI

Each group presented their AI-based lesson plans or ideas.

These presentations also included examples of how some schools are already using AI successfully.

Conclusion

The workshop wrapped up with a closing ceremony, where certificates and shields were awarded to all participants in appreciation of their time, effort, and enthusiasm.

Honored Facilitators

- Dr. Muhammad Anees Farooque – Director, AI & e-Learning, Taaleem Foundation
- Mr. Imran Khalil – EdTech Trainer
- Mr. Awais Tayeb – IT Support Officer, Jahanian
- Mr. Muhammad Shayan Ahmed – World's Youngest AI Educational Content Developer and Trainer

How the Workshop Worked ??

- Live demonstration of AI tools
- Group based planning and brainstorming
- Case studies of real AI integration in Schools
- Plenty of time for open discussion and networking

What Participant Gained ??

- A clearer understanding of how AI can support teaching and learning.
- Ready-to-use strategies and tool tailored to their own schools.
- New connections with peers and experts for future collaboration .

Communication Skills Soft Skill Session

TTC, Kharan - Male Campus
July 23, 2025

The Technical Training Center (TTC) Kharan organized a focused soft skills session on Communication Skills for male campus trainees, led by Campus Director Syed Allah Dad Shah. The training emphasized both verbal and non-verbal communication, active listening, public speaking, and professional writing. Participants learned the significance of tone, gestures, and body language, practiced techniques for attentive listening and constructive feedback, and explored strategies to overcome public speaking anxiety. The session also covered the essentials of professional email and report writing, equipping trainees with practical tools to communicate more effectively in academic and workplace settings.

Use of Technology

Chat GPT & Canva

People's School, Tando Allahyar
July, 2025

As part of its ongoing commitment to educational excellence and digital empowerment, People's School Tando Allahyar organized a comprehensive training session aimed at enhancing teachers' technological proficiency and academic documentation skills. The training comprised two targeted sessions: Integrating Technology in Education – ChatGPT & Canva and the other one was "Enhancing Documentation Skills – MS Word & Excel". The first session was focused on familiarizing educators with cutting-edge digital tools to support teaching and learning. Teachers received hands-on training on using ChatGPT to develop lesson plans, assessments, and creative classroom activities. In addition, they explored Canva as a platform to design visually engaging educational materials, including posters, certificates, and presentations. During the training session, participants gained practical insights into leveraging AI and design tools to streamline workload, foster creativity,

and improve student engagement. The second session emphasized foundational computer skills essential for academic tasks. Teachers were guided through advanced formatting techniques in MS Word, including document structuring, table creation, and diagram insertion. The Excel module covered result sheet preparation, formula application (e.g., SUM, AVERAGE), and percentage calculation for efficient student performance tracking. Educators acquired essential skills for producing professionally formatted academic documents and managing student records with accuracy and ease. The training was well-received by attendees, who appreciated the relevance and applicability of the content. School leadership reiterated its commitment to ongoing professional development and the integration of technology into classroom practice.

An Engaging & Productive Training Session on “English Daily - Use Sentences”

People's School, Tando Allahyar
July, 2025

Teachers at People's School, Tando Allahyar, took part in an engaging and productive training session on the topic “English Daily-Use Sentences.” The session aimed to strengthen teachers' communication skills and enhance classroom interactions by incorporating simple, practical, and commonly used English expressions into daily routines.

From greetings and instructions to everyday conversation starters, the session equipped teachers with practical tools to make English an integral and natural part of school life, contributing to a more immersive learning experience for students.

Training Was Focused on ..

- Using English naturally during classroom activities
- Encouraging students to respond confidently in English
- Creating a consistent English-speaking environment in school

Specialized Training Session to equip Teachers with effective Strategies to enhancing class interation and participation

People's School, Tando Allahyar
July, 2025

A specialized training session on Student Engagement Techniques was held at Peoples School, Tando Allahyar, to equip teachers with effective strategies for enhancing classroom interaction and participation.

The session, conducted by Miss Sitara, was marked by her dynamic and engaging delivery style. She shared practical, easy-to-implement methods, including interactive questioning, group-based learning activities, integration of multimedia tools, and student-centered teaching approaches.

Teachers actively participated in the training, exchanging ideas and practicing the techniques demonstrated. Participants expressed their appreciation for the valuable insights, noting that the strategies will significantly contribute to improving student involvement and overall learning outcomes.
